

Thompson Wall

AW1081 1.0

GENERATION LIGHTING Wall

GENERAL PRODUCT INFORMATION:

These fixtures are intended to be installed utilizing NEC compliant junction boxes.

This product is safety listed for damp locations.

Incandescent lamps may be dimmed with a standard incandescent dimmer. LED lamps may be dimmed with a LED dimmer. Consult lamp manufacturer for additional information.

CAUTION - RISK OF FIRE

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

Use minimum 90°C supply conductors.

- 1 Secure the mounting plate to the junction box.
- 2 Connect the fixture ground wire to a suitable ground in accordance to local electrical codes.
- 3 Connect the white fixture wire to the neutral power line wire with a wire nut.
- 4 Connect the black fixture wire to the hot power line wire with a wire nut.
- 5 Properly place all wires and wire nut connections into the junction box/fixture base, mount the fixture onto the mounting plate, and secure it in place using the fixture screws.
- 6 Install the candle tube by sliding it over the socket.
- 7 Screw the lamp into the socket. Refer to the label on the socket for Max Wattage Information.
- 8 Remove the diffuser cap by loosening the screws. **Caution:** To avoid scratching the back plate, do not slide the diffuser over the surface of the back plate.
 - a) Hold the diffuser at an angle near the fixture base.
 - b) Gently push the diffuser against the back plate.
- 9 Place the diffuser cap on top of the diffuser and secure with the provided screw.
