

# Milo Floor Lamp

TT1112 | I.1

## GENERATION LIGHTING PORTABLE

### GENERAL PRODUCT INFORMATION:

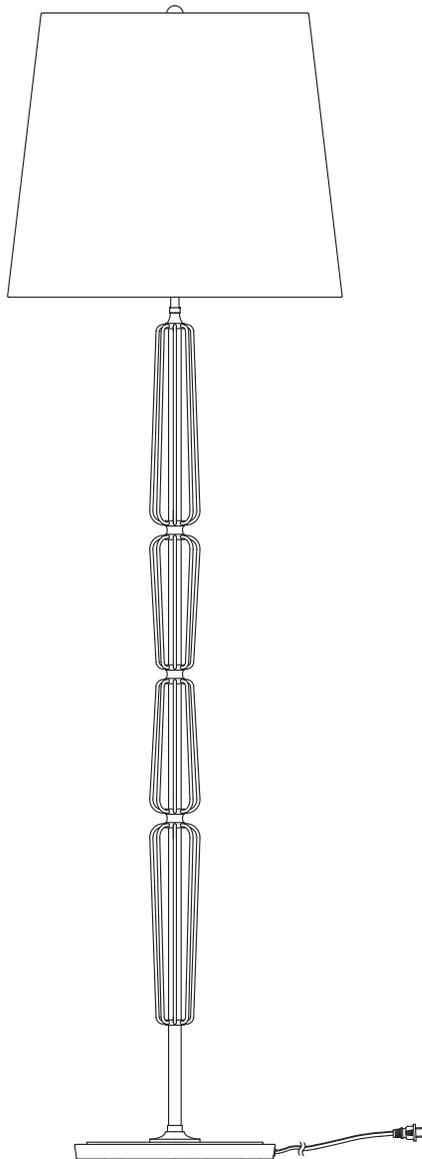

This product is safety listed for dry locations only.

This instruction shows a typical installation.

**SAVE THESE INSTRUCTIONS!**

### IMPORTANT SAFETY INSTRUCTIONS

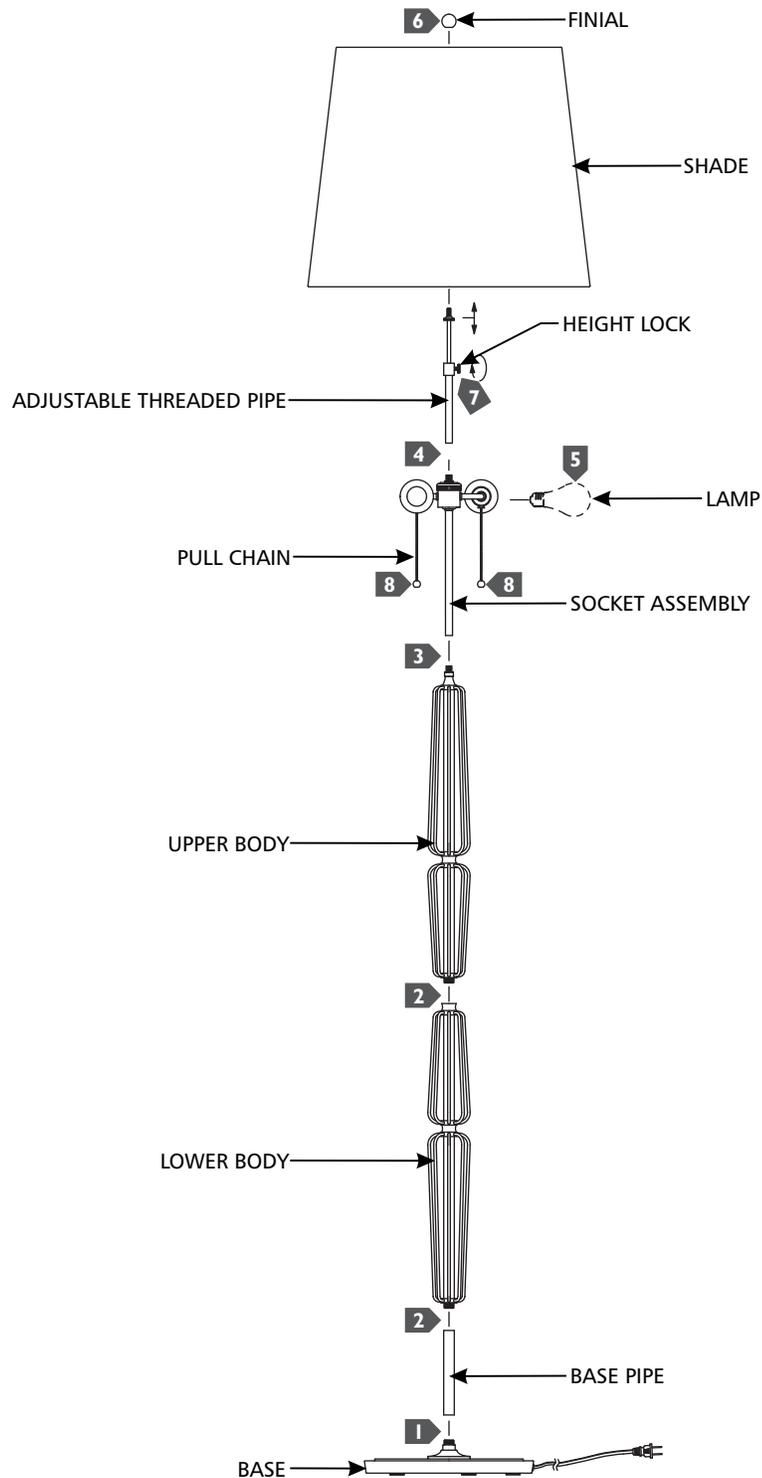

This portable lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not attempt to defeat this safety feature.

# Assemble the Lamp

IA

- 1** Screw the base pipe to the base.
- 2** Then screw the lower lamp body to the base pipe, then screw the upper body onto the lower body.
- 3** Screw the socket assembly onto the upper body.
- 4** Screw the adjustable threaded pipe onto the socket assembly.
- 5** Screw the lamps into the sockets. Refer to the label on the lamp socket for Max Wattage Information.
- 6** Place the shade onto the adjustable threaded pipe and secure in place by screwing the finial onto the pipe.
- 7** Loosen the height lock on the adjustable threaded pipe, adjust to desired height, and tighten the height lock to secure in place.
- 8** Lamps may be turned on and off independently with individual pull chains.
