**SAVE THESE INSTRUCTIONS!**

## Install the Fixture

- 1** Secure the mounting plate to the junction box.
- 2** Connect the fixture ground wire to a suitable ground in accordance to local electrical codes.
- 3** Connect the white fixture wire to the neutral power line wire with a wire nut.
- 4** Connect the black fixture wire to the hot power line wire with a wire nut.
- 5** Mount the fixture base onto the mounting plate and secure it with the fixture screws. **WARNING: If using halogen lamps, this fixture must be mounted in the UP position only. If using LED lamps, this fixture can be mounted in the up or down position.**
- 6** Place the outer, inner shade, and spacer onto the socket (in that order), then secure them in place by screwing the collar nut onto the socket using the shade tool.
- 7** Using a soft cloth (**halogen lamps only**), install the lamps by pushing the lamp pins into the sockets. Refer to the label on the lamp socket for Max Wattage Information.
- 8** **For Halogen Lamps Only:** Install the lamp shields over the lamps.
